Introducing The Camel Soap Factory

Founded over a decade ago by Stevi Lowmass. The Camel Soap Factory has grown admirably in that time, going from a kitchen based business to a major player in the Middle East.

Today the company exports to over 40 countries and has now arrived in South Africa, Stevi's home country.

Our Packaging

When we say that we care for the environment, we mean it. And what's the point of natural ingredients if the packaging isn't? The beauty industry generates over 120 billion units of packaging every year, harming the environment and marine life. We do our best to wrap our products with eco-friendly packaging.

At TCSF, sustainability is more than just a buzzword. When we say we care for the planet, we mean it, and it shows.
